HUMAN RESOURCES

EXAMINATION ANNOUNCEMENT NO 21-020

POSITION: STAFF NURSE III (CERTIFIED WOUND CARE)
OPENING DATE: 06/10/2021

NO. OF VACANCIES: 1
CLOSING DATE: CONTINUOUS

SALARY: $53,619.55 P/A - $59,115.55 P/A

The salary given will be determined by the qualifications of the appointee.

LOCATION: Nursing Services, Commonwealth Health Center, Commonwealth Healthcare Corporation, Saipan

DUTIES:
The hospital-based Wound and Ostomy Care nurse serves as a clinical resource and consultant for the acute and rehabilitative care of patients with selected disorders of the gastrointestinal, genitourinary, and integumentary systems such as acute and chronic wounds (eg, complex draining wounds, fistulae, pressure ulcers, vascular ulcers), ostomies, percutaneous tubes, and continence disorders. Professional responsibilities are carried out through direct patient care, clinical consultation, education, research, and administration.

1. GENERAL DUTIES/RESPONSIBILITIES
   • Utilizes the nursing process when directing or delivering care to patients with WOC needs including assessment, diagnosis, outcomes identification, planning and implementation (eg, coordination of care delivery, health teaching and promotion, consultation), and evaluation.
   • Utilizes and maintains current physical, psychosocial, clinical assessment, and therapeutic communication skills to determine individual patient needs and expected outcomes.
   • Participates in committees or task forces related to wound, ostomy, and continence issues.
   • Provides consultation and other services such as wound care in outpatient clinics

2. WOUND/SKIN CARE
   • Provides consultation for individuals with altered skin integrity (eg, pressure ulcers, draining wounds, fistulae) to develop individualized plans of care and attain expected outcomes.
   • Provides guidance to staff in implementing protocols to identify, control, or eliminate etiologic factors for skin breakdown, including selection of appropriate support surfaces.
   • With a physician's order, provides appropriate debridement of devitalized tissue (eg, conservative sharp debridement, silver nitrate [AgNO3] cauterization of nonproliferative wound edges, hypergranulation tissue, or to control minor bleeding).
   • Provides appropriate education to patients, caregivers, and staff regarding skin care, wound management, care of percutaneous tubes, and draining wound/fistulae management.
   • Validates pressure ulcer data collection for nursing quality indicators (eg, pressure ulcers and restraint use).

3. OSTOMY CARE
   • Provides pre- and postoperative education to patients (and their families) who are undergoing ostomy surgery, with consideration of the need for physical and psychological adaptation.
   • Marks the stoma site preoperatively by determining the appropriate site for stoma placement with consideration of the patient's anatomical markings, physical capabilities, and lifestyle.
   • Assesses the stoma and stoma functioning and initiates appropriate procedures for stoma care (eg, removes rod/sutures, measures/fits a pouching system, teaches care of stoma/peristomal skin and pouch).

CHCC is an equal opportunity employer. We consider all applicants for all positions without regard to race, color, religion, sex, disability, age, mental or veteran status, the presence of a non-job related medical condition or disability, or any legal protected status.
• Provides appropriate educational information to patients, including postoperative and discharge instructions about care, referrals, and supply needs.
• Serves as a resource for patients after discharge through telephone consultation or outpatient services.

4. CONTINENCE CARE
• Identifies risk factors for urinary or fecal continence disorders.
• Assesses patients with urinary and/or fecal continence disorders.
• Establishes an appropriate management program to include dietary and fluid management; bowel training or stimulated defecation program; bladder retraining, prompted voiding, or a scheduled voiding program; pelvic muscle reeducation without biofeedback; indwelling catheter management; recommendations regarding containment/absorptive products and devices and skin care; and education and counseling for patients/caregivers.
• Identifies patients requiring referral for assessment/management of complex urinary or fecal continence disorders.

5. EDUCATION
• Participates in developing and implementing procedures and protocols, based on current national guidelines, to deliver care to patients with the following:
  • Urinary or intestinal disorders resulting in the need for an ostomy.
  • Conditions requiring wound management.
  • Impaired or altered skin integrity.
  • Urinary and/or fecal continence issues.
• Assists the nursing and medical staff in maintaining current knowledge and competence in WOC care by providing the following:
  • Formal or informal continuing education programs.
  • Clinical rounds.
  • Lunch and learn sessions.
  • Orientation sessions.
  • Collaborative practice committees.
  • Nursing councils.
• Attends continuing education programs related to WOC nursing to maintain current knowledge and skills.

6. RESEARCH
• Collaborates with leadership and multidisciplinary clinical practice teams to establish protocols, which support best practices to achieve optimal clinical benefits for patients needing WOC care.

7. ADMINISTRATIVE DUTIES
• Maintains and submits required activity and statistical reports to the appropriate department supervisor.
• Contributes to the selection of cost-effective supplies and equipment related to WOC care, which might need to be individualized for different units/departments.
• Performs other related duties as assigned.

QUALIFICATION REQUIREMENTS:
Associate’s degree in Nursing from a recognized/accredited school of Nursing or foreign equivalent plus seven (7) years related work experience.

OR

Bachelor’s degree in Nursing from a recognized/accredited school of Nursing or foreign equivalent plus five (5) years related work experience.

LICENSES/ CERTIFICATIONS:
Must pass the NCLEX-RN and must be licensed as a Registered Nurse by the Commonwealth Board of Nurse Examiners (CBNE) to practice nursing in the Commonwealth of the Northern Mariana Islands (CNMI). Must possess BLS/ACLS Certifications with AHA. Graduation/ Certificate of Completion from a WOCN-accredited wound, ostomy and continence (WOC) nursing education program, or satisfactory completion of an accredited program within 6 months after assuming the position. Acceptable certification: 1) Certified Wound Care Nurse — CWCN— offered by the Wound Ostomy and Continence Nursing Certification Board (WOCNCB); 2) Wound Care
