CNMI Weekly Notifiable Disease Report

EPI WEEK 25

EPI WEEK DATE: June 19 - June 25, 2022

In the table below, weekly and year to date counts are displayed through epi week 25. Additionally, a 3-year weekly average of incident counts comparing the incident count for this time period to the average of the previous 3 years (2019-2021) is included as well as incident rates for conditions that have counts greater than 20. Rates cannot be calculated for counts less than 20 due to statistical unreliability.
