NATURE OF WORK

Under the direct supervision of the Disaster Program Manager (DPM) and the general supervision of the Community Outreach & Response Services (CORS) Administrator, the incumbent in this position will coordinate community-based crisis intervention efforts, oversees a multidisciplinary field team of crisis counselors, and community liaisons to deliver short-term, psycho-educational support services.

DUTIES:

- Accompany Crisis Outreach Workers (COWs) during community outreach as an active observer to ensure appropriate and high-quality service delivery.
- Conduct regular team meetings and clinical debriefings to mitigate compassion fatigue among frontline counselors.
- Train staff on disaster-related psychological reactions, coping mechanisms, and specialist SAMHSA/FEMA guidelines.
- Ensure all team actions align with Crisis Counseling Program (CCP) core principles---strength-based, anonymous, outreach-oriented, and delivered in non-traditional settings like survivors' homes or local shelters.
- Oversee the team's delivery of individual and group crisis counseling, public educational presentations, and supportive community contacts.
- Coordinate referral pathways for survivors who present with intensive trauma, severe mental illness, or substance abuse issues requiring traditional clinical treatment.
- Direct the collection of real-time encounter details, ensuring accurate use of tools.
- Analyze localized demographic and field data to identify underserved zones and modify outreach plans.
- Compile data and field updates to support the Program Manager with state, FEMA, or SAMHSA grant reporting requirements.
- Represent the CCP at meetings, community disaster recovery events, and faith-based groups.
- Lead the creation and distribution of psycho-education materials, flyers, and media announcements regarding disaster recovery.
- Performs other duties as assigned.

QUALIFICATION REQUIREMENTS:

Education: Bachelor's degree in psychology, social work, counseling, public health, behavioral health, or related field.

Experience: Minimum two years' experience in crisis intervention, community outreach, mental health programs, or disaster response, with prior supervisory experience preferred.

Other: Strong empathetic listening, quick crisis assessment, adaptability to changing environments, and the ability to work

with multi-disciplinary teams.

Licenses/Certifications: Must have a valid CNMI driver's license.

KNOWLEDGE/ SKILL/ ABILITIES:

- Disaster Behavioral Health — Deep understanding of the psychological impacts of disasters, phases of disasters, and emotional reactions of survivors.
- CCP Model and Regulations – Comprehensive knowledge of FEMA/SAMHSA guidelines, particularly the non-clinical, anonymous, strengths-based outreach framework.
- Psychological First Aid – Complete familiarity with PFA core actions, stabilization techniques, and crisis de-escalation practices.
- Community Resource Networks – Comprehensive awareness of local mental health, substance use, housing, and social service referral pathways.
- Vicarious Trauma Signs – Knowledge of burnout, compassion fatigue, and secondary traumatic stress symptoms in frontline staff.
- Field Supervision – Proven ability to direct, motivate, and manage multi-disciplinary outreach teams in fluid, stressful environments.
- Crisis Intervention – Exceptional skills in active listening, emotional stabilization, and assessing immediate safety or risk levels.
- Data Management and Tech – Proficient in using mobile data tracking tools to log field encounters accurately.
- Interpersonal Communication – High-level verbal and written communication skills to interface with survivors, local leaders, and government stakeholders.
- Adaptability – Ability to navigate unstructured, field-based environments (e.g., unsheltered sites, emergency scenes) and respond to rapidly changing situations.
- Cultural Humility – Ability to adapt communication styles and service delivery to respect diverse demographic, socio-economic, and cultural backgrounds.
- Maintain Anonymity – Ability to strictly uphold the CCP's non-traditional structure, avoiding clinical diagnostic labeling or creating permanent case files.
- Rapid Problem Solving – Ability to assess field challenges, logistical hurdles, or team conflicts instantly and implement safe solutions.
- Mobilize Resources – Ability to quickly connect high-risk individuals with long-term clinical care systems while operating within field limits.
