## FOR IMMEDIATE RELEASE

### CHCC launches online portal for immunization records for patients

The Commonwealth Healthcare Corporation (CHCC) launched its new online portal for immunization records. The portal allows adults, parents, or legal guardians to view and print immunization records, including COVID-19 vaccination for their child(ren) (ages 0-17 years).

The portal is available at <https://www.chcc.health/immunization.php>.

Parents and people 18 years and older should call the VaccinateCNMI call center to update their contact information before accessing the portal. Contact information for children must be the same as their parent/legal guardian to use the portal. Incorrect contact information will cause delays in accessing you or your child's record.

The number for the VaccinateCNMI call center is (670) 682-7468 (SHOT), available Monday to Saturday, 7:30 a.m. - 4:30 p.m., and Sunday, 8 a.m. - 12 p.m.

The patient portal utilizes the CNMI's registry for immunization, WebIZ, which is a confidential, online health system used to keep track of immunization records. It combines all immunizations a person has received in the CNMI into a single record even if they were given by different health care providers. It makes keeping track of vaccinations easier and helps ensure people get the right vaccines at the right time.

Vaccine recipients or parents and legal guardians of minor children can download and print an official immunization record through the online portal. An official record can be used as proof of immunization for employment, travel, or other purposes.

For more information, call (670) 682-7468 (SHOT), available Monday to Saturday, 7:30 a.m. - 4:30 p.m., and Sunday, 8 a.m. - 12 p.m.

For more information about CHCC programs, follow @cnmichcc on Facebook, Instagram, and Twitter; visit <https://www.chcc.health>; or call (670) 234-8950.
